# Introduction

Qatar's education industry has seen a rapid growth over the past decade. Human Development being one of the four pillars of Qatar National Vision 2030, the government has placed significant interest in developing the education industry. The high demand is driven by a growth in population, economic development and changing regulations.

The significant growth in education sector has put pressure on school supplies of quality resources, goods and services. Sourcing a reliable and cost effective service turned out to be a challenge to many educational institution affecting Learning Goals.

The trial and error system is an expensive affair and least tolerant when it comes to running an educational institution. The cost of school operation is growing at an average of 8-10% per annum and the return on investment is on a diminishing trend.

STAC has developed unique capabilities to Value Adding educational institutions by providing Single Window Service for their Operations and Support Services. The programme aims at supporting the educational institutions to achieve Organisation Goals through seamless and feasible operation.

The growing demand for quality education is attracting many foreign operators to Qatar as a major opportunity. Our clients could be the champions by focusing on Teaching and Learning while we take care of all their procurement needs.
